Overview of Health Screening Programs

Standard

It includes basic essential tests to check the current health status and early diagnosis.

Premium

Extensive screening exams including CT scans and MRI for diagnosis of major cancers and cardiovascular/cerebrovascular diseases at the early stage.

Intensive

Screening exams focus on specific organs or diseases.

Supplementary Pack

This can be added to your main program for a focused detection of certain organs in addition to main comprehensive check-up.

All programs include :

Health Questionnaire, Medical Consultation, Body Composition Analysis, Blood Pressure, Visual Acuity, Intraocular Pressure, Dietary Assessment, Electrocardiography, Pulmonary Function, Chest X-ray, Blood Test{Anemia, Liver & Renal & Thyroid Function, Lipid, Fasting Blood Sugar, HbA1c, Uric Acid, Electrolytes, HIV, Syphilis, Hepatitis(Type B & C), Hepatitis A(aged≤49), Tumor Markers(Pancreatobiliary, Liver, Colon)}, Urinalysis, Stool(Parasite & Occult Blood), Sedative Gastric Endoscopy/Serum Helicobacter Pylori, Abdominal Ultrasonography

※ Mental Health Assessment are included in all programs and the results will be given when questionnaires are filled out.

※ English medical reports and medical images are provided for those who have done the Package Program.

Standard

| Program | Recommended Age | Male | Female | Test Items |
|--|-----------------|------|--------|--|
|  Standard | 20-34 | 970 | 1,010 | · Female : Gynecologic Examination & Consultation, Ovarian Tumor Marker, Cervical Cytologic Test(PAP Smear) |
| | ≥35 | | 1,030 | · Common : Fundus Photography, Audiometry(aged≥50) · Male : Prostate Tumor Marker · Female : Standard test items(aged 20-34) + Mammography |

Intensive

Vit. D(blood), Dental Exam/X-ray and Hepatitis A are included in Intensive Program

| Program | Recommended Age | Male | Female | Test Items |
|--|-----------------|-------|--------|---|
|  Cancer | All | 2,980 | 3,000 | · Common : Sedative Colonoscopy, Abdominal-pelvic CT, Low Dose Chest CT, Thyroid Ultrasonography, Serum Pepsinogen, Blood Coagulation · Male : Laryngoscopy, Urine Cotinine, Liver Fibroscan/Insulin, Prostate MRI · Female : Gynecologic & Breast Ultrasonography, HPV DNA Chip, 3D Digital Mammography, Bone Densitometry |
|  Brain | All | 2,380 | 2,420 | · Common : Brain MRI/MRA(Including Carotid Artery) |
|  Cardiovascular | All | 2,450 | 2,500 | · Common : Coronary 3D CT/Calcium Scoring CT, Treadmill Test, Echocardiography, Carotid Ultrasonography, Microalbuminuria, Arterial Stiffness |
|  Digestive | All | 1,970 | 2,200 | · Common : Sedative Colonoscopy, Abdominal-pelvic CT, Serum Pepsinogen, Liver Fibroscan/Insulin, Blood Coagulation · Female : Gynecologic Ultrasonography |
|  Respiratory | All | 1,930 | | · Male : Otorhinolaryngoscopy, Low dose Chest CT, Treadmill Test, Urine Cotinine, Carotid Ultrasonography |
|  Women | All | | 2,160 | · Female : Thyroid & Breast & Gynecologic Ultrasonography, HPV DNA Chip, Female Hormone(4kinds), Bone Densitometry |

Premium

All premium programs include :

Premium Medical Consultation, Dental Exam/X-ray, Thyroid Ultrasonography, Audiometry, Blood(Rheumatoid Factor, Allergy, Detailed Lipid Panel, Serum Pepsinogen, Vit. D, Blood Coagulation), Urine(Cytology, Cotinine, Microalbuminuria), Cardiovascular(Treadmill Test, Echocardiography, Arterial Stiffness, Carotid Ultrasonography), Pulmonary(Low Dose Chest CT, Bronchial Provocation(Provocholine), Otorhinolaryngoscopy), Gastrointestinal(Abdominal-pelvic CT, Sedative Colonoscopy, Liver Fibroscan/Insulin), Brain MRI/MRA(Including Carotid Artery)

| Program | Recommended Age | Male | Female | Test Items |
|---|-----------------|-------|--------|---|
|  Premium | 35-49 | 5,600 | 6,280 | <ul style="list-style-type: none"> · Male : Male Hormone, Coronary 3D CT/Calcium Scoring CT · Female : Gynecologic Ultrasonography, HPV DNA Chip, Female Hormone(4kinds), Ovarian Tumor Marker(HE4), Detailed Thyroid Hormone Test, Abbreviated MRI of the Breast, 3D Digital Mammography, Breast Ultrasonography, Osteoporosis Blood Test, Bone Densitometry |
| | 50-64 | 6,100 | 6,680 | <ul style="list-style-type: none"> · Male : Premium Test Items(aged 35-49) + Prostate MRI · Female : Premium Test Items(aged 35-49) + Coronary 3D CT/Calcium Scoring CT |
| | ≥65 | 6,160 | 6,500 | <ul style="list-style-type: none"> · Male : Premium Test Items(aged 50-64) + Bone Densitometry/Thoracic-lumbar Spine X-ray · Female : Premium Test Items(aged 50-64) + Thoracic-lumbar Spine X-ray ※Excluding HPV DNA Chip, Female Hormone(4kinds) |

Supplementary Pack

Consultations included in the Pack are conducted by related department's specialized doctors.

| Category | Program | Price | Test Items | Category | Program | Price | Test Items |
|--|------------------|-------|--|--|------------|-------|---|
|  Heart | Arrhythmia | 544 | Consultation, 12-lead EKG, 24hr Holter Monitoring, Treadmill Test, Echocardiography |  Ophthalmology | Eye Health | 464 | <ul style="list-style-type: none"> · Consultation by ophthalmologist, Visual Acuity & Refraction · Screening tests for optic nerve and retinal diseases including macular degeneration, glaucoma, and diabetic retinopathy, the three most common diseases causing blindness {Detailed Intraocular Pressure, Fundus Photography, Optical Coherence Tomography(OCT)} · Screening tests for anterior segment diseases including cataract and dry eye. {Slit Lamp Biomicroscopy, Break Up Time(BUT) Measurement, Corneal Staining Score, Schirmer's Test, Matrix Metalloproteinase-9(MMP-9) Test, Ocular Surface Disease Index(OSDI)} |
| | Angina | 903 | Consultation, 12-lead EKG, Treadmill Test, Coronary 3D CT/Calcium Scoring CT, Echocardiography | | | | |
|  Respiratory | Allergy | 853 | Consultation, Paranasal Sinus X-ray, Otorhinolaryngoscopy, Bronchial Provocation(Provocholine), Allergy Blood(40kinds), Skin Prick Test(55kinds) | | | | |
| | Chronic Coughing | 619 | Consultation, Rhinoscopy, Laryngoscopy, Low Dose Chest CT, Paranasal Sinus X-ray, Bronchial Provocation(Provocholine), Urine Cotinine | | | | |

| Category | Program | Price | Test Items | Category | Program | Price | Test Items | | | | | |
|---|----------------------|-------|--|--|--|------------------------------|--|---|---|--|--------------------------|--|
|  Musculo-skeletal | C-L Spine | 1,328 | Consultation, Cervical and Lumbar Spine MRI, Cervical Spine anterior and lateral X-ray, Lumbar anterior and lateral X-rays |  Women | Female Hormone | 153 | Female Hormone 4kinds(LH, FSH, E2, Ovarian Function) | | | | | |
| | Cervical | 1,006 | Consultation, MRI & Multiple X-rays of cervical spine | | Fertility Preservation | 188 | Female Hormone 4kinds(LH, FSH, E2, Ovarian Function), Consultation of referral to fertility preservation clinic | | | | | |
| | Lumbar | 1,110 | Consultation, MRI & Multiple X-rays of lumbar spine | | Pre-marriage (Female) | 695 | Breast & Gynecologic Ultrasonography, Rubella(IgG, IgM), Varicella, Female Hormone 4kinds(LH, FSH, E2, Ovarian Function) | | | | | |
| | Knee | 1,100 | Consultation, MRI(Lt. or Rt. knee), X-rays(both knees) | |  Urology | Benign Prostatic Hypertrophy | 371 | Prostate Ultrasonography, Male Hormone, International Prostate Symptoms Score(IPSS), Sexual Function Test(Male Sexual Function Index), Uroflowmetry, Residual Urine Volume Measurement(Ultrasonography) | | | | |
| | Shoulder | 1,008 | Consultation, MRI(Lt or Rt shoulder), X-rays(Lt or Rt shoulder) | Prostatic Cancer | | 620 | Prostate MRI, Prostate Tumor Marker(PSA, free PSA), International Prostate Symptoms Score(IPSS) | | | | | |
|  Rheumatism | Blood | 135 | Consultation, Detailed Rheumatic Blood Test ※X-rays can be added after consultation |  Kidney | Fatty Liver | 175 | Consultation, Liver Fibroscan/Insulin | | | | | |
| | Hand/Knee/Foot X-ray | 48 | Anterior and lateral X-rays of both side ※Cost for each site, blood test is mandatory | | Hepatitis 1 | 428 | Consultation, Liver Fibroscan/Insulin, HBV viral load, HBeAg/Ab, HBs Ag Quantitation, Blood Coagulation Test | | | | | |
|  Kidney | Kidney | 692 | Consultation, Detailed kidney CT, Microalbuminuria(Microvascular Complications), 24hr Urinalysis(Electrolytes/Calcium/Uric acid/Hydroxide/Phosphorus/Protein/Creatinine/Renal Function/Citrate/Microalbuminuria/Magnesium), Urine Cytology, Hematuria, Urinalysis, Detailed Renal Blood Test |  Liver | Hepatitis 2 | 283 | Consultation, Liver Fibroscan/Insulin, Hepatitis C PCR, Blood Coagulation Test | | | | | |
| | | | | |  Brain | Stroke | 1,990 | Consultation, Brain MRI/MRA(Including Carotid Artery), Echocardiography, Carotid Ultrasonography, Vit. D(blood), Microalbuminuria, Detailed Brain(Stroke) Blood Test |  Life Style | Smoking Cessation | 340 | Smoking Cessation Consultation, Urine Cotinine, Low Dose Chest CT, Laryngoscopy, Smoking Risk Assessment(Questionnaire) |
| | | | | | | | | | |  Vaccination | Added after consultation | ※Vaccination can be added upon your request after consultation with a doctor. Hepatitis(Type A & B), Seasonal Influenza, Streptococcus Pneumonia, Varicella, Rubella, DPT(Diphtheria, Pertussis, Tetanus), HPV Vaccine(Cervical cancer vaccine), Adult Meningitis, Herpes Zoster, Typhoid Fever |

Seoul National University Hospital Healthcare System Gangnam Center offers customized programs to provide comprehensive and effective medical examinations considering the individual's medical history, concerns, and risk factors.

 **Reservation** · Telephone: +82-2-2112-5500(Korean), +82-2-2112-5503(International) | Weekdays, 8AM-5PM
Consultation · Internet: <http://en-healthcare.snuh.org>

 **Result** · The consultation will be held after 5-7 days from the examination by the medical experts at SNUH Healthcare System Gangnam Center
Consultation · You will be receiving urgent notice if critical abnormal results are found
· You may check the test results via visit, telephone, or the internet
· Secondary opinion by specialist will be provided if needed
· Telephone: +82-2-2112-5601 | FAX: +82-2-2112-5590

 **Location** · Address : 38-40th FL, GFC Building 152, Teheran Ro(737 Yeoksam-dong), Gangnam-gu, Seoul, 06236, South Korea
· From Airport(by bus): Bus #6020 will bring you to Yeoksam Station directory from Incheon Airport. The journey will take about 1.5 hours.
· Address Card(Show this address to your taxi driver):
